Sugar in Tchama County, California. - Intelligence

Chinese Super in Tehanse County, Californics.—Intelligence has been received from a gentleman who resides at Oakwood, near Tehama, California, and who has planted about eighty hills of Chinese sugar cane, of a very satisfactory character. The cane was planted about the 10th of May, and now it is from six to eight inches high, and premises an abundant yield. Many of the farmers of California think that the Sorgho Sucre will occupy, at no distant day, an important position among the products of agriculture in that State.

Aspinwall, June 25, 1857.

SIR: In the absence of the commander-in-chief, I have
the honor to inform you that intelligence has this day
been received (as I think from a reliable source) giving
the most encouraging prospects of a speedy settlement of
all the points at issue between our government and that
of New Gennada.

all the points at issue between our government and that of New Granada.

Nathan Kartright, esq., British consul at Carthagena, has written to Captain Erskine, of her Britannic Majesty's ship Orion, now at this anchorage, as follows:

"BRITISH CONSULATE,
"Carthagena, June 20, 1857.

"Mr. Griffith writes me that instructions have been sent to the New Granadian minister at Washington to cede everything to the Americans, and decree to the governors of the littoral provinces to communicate that fact to any ships of war which might be sent out from America to the shores of New Granada with hostile intentions."

The acting United States consul at Aspinwall (Mr. A. The acting United States consul at Aspinwall (Mr. A.

Murrelly also writes me, in confirmation of the above, as follows:

"The differences between the United States and the republic are likely to be soon amicably arranged, as the executive has been, it is said, authorized by Congress to settle them at once, and on the best possible terms. Instructions will probably be transmitted by the present mail to Gen. Herran on the subject."

I am indebted, sir, to the courtesy of Captain Erskine, of the Reitish page, for the extract form Cornell Kart.

I am indebted, sir, to the courtesy of Captain Erskine, of the British mays, for the extract from Consul Kartight's letter; furnishing the first information of this important determination on the part of the Granadian government; and as Mr. Griffith, from whom Mr. Kartight derived his information, is the British charge d'affaires at Bogota, there can be scarcely a doubt of the accuracy of his statement. Captain Erskine assures me that it may be entirely relied upon. Should official notice of the fact be received by me in time for the ensuing mail, it will be duly transmitted.

I have the honor to be, sir, your obedient servant,

OUR NEW YORK CORRESPONDENCE.

NEW YORK, July 13, 1857. The United States Democratic Review has been revived after two months of eclipse, and comes forth in a beautiful dress, under charge of that accomplished scholar and ful dress, under charge of that accomplished scholar and true democrat, Conrad Swackhamer, esq., who is both editor and proprietor. It is a national work, published in magazine-form monthly, at the low rate of three dol-lars per annum. The democratic party should promptly render it the support it must have. Let all remember to forward at once their subscriptions to No. 335 Broad-

from the Spectator:

"About two weeks ago this gentleman arrived here on his way to the Black mountains, with a view of making further explorations of that region of country. It is with pain that we have now to announce his death. He left the Mountain House on this side of the mountains with the intention of crossing them to Caney river without a guide. It was ascertained that he never reached Caney river settlement, and, supposing that he was lost, numbers of persons started in search of him. His body was found on the Cat-tail fork of Caney river, on yesterday, about 3 o'clock. It seems that he was walking on the edge of a precipice, when his feet slipped; he caught at a branch of a laurel, but it broke, and he fell into a long, unending eternity. He fell forty feet. Of him it is niedless to say anything; his reputation is the reputation of as a oracle of a tauret, but it broke, and he left into a long, unending eternity. He fell forty feet. Of him it is nëedless to say anything; his reputation is the reputation of our university and the State. To his exertions the prosperity of the former is as much due as any other man. He died a martyr to science and scientific knowledge."

RESISTANCE TO THE FEDERAL LAWS IN OHIO. - We learn from the Cincinnati Enquirer that Ichabod Corwin, a law-yer of Urbana, of good standing, was, on Friday, held to execution of process in the case of the United States mar-shals who were set upon by the mob in Green county, and shals who were set upon by the mob in Green county, and the prisoners taken from them. CASINE. - The race of dogs, like that of rais or mice, Three Days Later from Europe. - Arrival of the America. is prolific. The corporation of Washington has, for years past, made a fair experiment; and this truth, if there was at any time a doubt respecting it, is now established.

All "animals of the dog kind" are, by law, required to be taxed, but not one in a hundred, probably, is thus honored. At the rate the canines have been increasing in this city during the last forty years, the number hereabout will soon exceed that at Constantinople, where they are found useful as scavengers. The breeds of dogs in Washington are not entirely choice; there are few beauties to be found among them. Indeed, hints have been dropped as to their being closely allied to the wolves which formerly "roamed the forest free," before the city of Washington was founded perhaps their descendants in a direct line. But they have deteriorated instead of

The National Metropolis, however, is not the only city by very many of his friends during the day and evening. The common council tendered him the freedom of the city in most complimentary terms. He is on a visit to his friend Peter Cooper, esq., and is expected to remain during the present week.

Everything is unusually quiet in the city, and the democracy are preparing in earnest for the autumn election. New York will be fully redeemed.

The National Metropolis, however, is not the only city infested with a superrabundance of dogs. In many parts of the ecuatry the war spirit is fairly aroused against them—not "war to the knife," but war to the bludgeon or to the strychnine. In Baltimore this drug is made use of as solt on bits of meat, irrespective of the high price of the latter. The yard of the station-house of the southern police became, we are told, a receptacle of the dead!

THE TREASURY EXTENSION.—The work upon the Treasary extension is progressing rapidly. About two hundred and fifty workmen are regularly employed on the differ-ent kinds of work. The excavation for the entire extension, which will strike Fifteenth street seventeen feet above the present State Department, will not be finished before September, although the progress already made would seem to indicate its completion at an variier day. Considerable surprise has been expressed by persons visit-ing the work that accidents have not taken place. Enering into conversation with Mr. Boyle, who superintends the work of excavating, we learned that several accidents have already taken place. Several days since, one of the workmen employed in driving the large wedges used for splitting off sections of the earth was precipitated, with a portion of the earth he was assisting to loosen, into a art at the bottom of the excavation, a distance of twencart at the bottom of the excavation, a distance of twen-ty-seven feet. He was uninjured. Three Days Later from Europe—Arrical of the America,
Halipax, July 15.—The royal mail steamer America,
Capt. Alexander Ryrie, from Liverpool on the 3d, arrived
here this afternoon.

The North American arrived at Liverpool on the 2d.
The news is unimportant. There had been some revointionary movements in Naples. A party of insurgents
seized a steamer, and proceeded to the island of Fonseca,
where they liberated 300 prisoners. The steamer was afterwards captured by a frigate, and many new arrests
made. made.

BY TELEGRAPH.

Provisions were steady. Pork closed dull, and quotations were barely maintained. Bacon quiet. Lard was buoyant, with a large speculative inquiry. All qualities had slightly advanced.

Groceries.—London—Baring's Circular quotes rice firm. Sugar dull and nominal. Coffee quiet. Tea large, speculative, and all descriptions had considerably advanced; blacks were is. a ls. 6d. higher.

Naval stores—Rosin was heavy; common closed at 4s. 2d. a 4s. 5d. Spirits turpentine closed steady at 45s. a 44s. There were no transactions in tar and crude turpentine.

The money market was active. Consols at the opening 921 a 93 for money. Bullion in the bank had increased £206,000.

The America left Liverpool at nine o'clock on the morning of the 3d, and arrived at one, p. m., to day.

ENGLAND.

The Parliament proceedings had been unimportant. The House of Lords passed to a second reading of the bill for the reduction of the Sound dues. Mr. Baring called attention in the House of Commons to the necessity of taking steps to facilitate, by emigration, the supply of labor in British Gulana.

The American merchants in Liverpool gave a banquet on the Fourth of July to the officers of the steam-frigate Niagara, who on the next day were to dine with the mayor of Liverpool.

Advices from Kabylia announce more victories by the

French troops.

The depression in the Paris Bourse had given rise to rumor that the government contemplates rasing a ne loan, but it is believed to be unfounded. A reduction the rate of interest by the Bank of France will be looked. The Paris correspondent of the Times says that the re-cent conspiracy of the Italians against the life of Napo-leon was more scrious than was originally supposed. Twenty-one conspirators were arrested, who are said to be connected with those recently arrested at Genoa, and who professed to proclaim a republic in that city.

SPAIN.

The Spanish-Mexican question has taken no change The Mexican minister still remains in Madrid, although it is said he meditates an early return to Paris, where have will await further instructions from his government.

The revolutionary movement in Leghorn had been s The revolutionary movement in Legnorn had been sup-pressed. Advices were received at Paris on Friday an-nouncing that further insurrections in Italy had been or-ganized by Marrini. Two hundred arrests had been made in Genoa, and large quantities of muskets and ammuni-tion seized. A despatch from Vicuma announces another attempted insurrection at Sapri, in the Neapolitan terri-

THE diplomatic difficulties with Belgium stift continue. The Belgian minister was awaiting his passports. He is charged with stirring up an agitation in the principalities, assuring the people that the European powers had agreed upon the expediency of a union of the principalities, and the establishment of a monarchy under a Belgian prince. It is intimated that the rupture was brought about by Lord Stratford de Redeliffe. The London Daily News Lord Stratford de Redeliffe. The London Dally News correspondent says that the affair is likely to assume some importance. Several of the foreign ministers had visited the Relgian minister, and it was thought that those of the United States, Russia, France, Spain, and Sardinia will present to the Sultan a joint note on the subject. A meeting of the above diplomats had already been held at the house of the Russian amplaquador. A confidential circular had been addressed to the foreign diplomats, which maintains the right of the Porte to the island of Perim, and expresses the hope that England will evacuate it.

A letter from Hong Kong states that Lord Elgin and Baron Gras will hold an interview with Sir John Bowring at Singapore, and that no important operations would be undertaken until after the meeting. The French jour-nals doubt the statement that England had asked France for troops for China.

LIVERPOOL.—The cotton market closed firm—sales of the week, 58,600 bales; speculators taking 7,500 and ex-porters 6,000, Quotations were generally unchanged, but some descriptions were slightly higher—Orleans fair, 8\(\frac{1}{2}\)d.; middling, 8 1-16; Mobile fair, 8\(\frac{1}{2}\), imiddling, 8\(\frac{1}{2}\); Uplands fair, 8 5-16; middling, 7 15-16. Meanwhile, their glass-houses are undergoing thorough repair from the effects of the late hail-storm, and other wear and tear. A fine new green-house, of a circular form, is also about completed, at the east end of the principal old one. This has been much needed for some time for the proper accommodation of newly-received and newly-propagated plants. For the want of more room, the plants have been for a season or two injuriously crowded. This new room will make matters more comfortable for plants, keepers, and visitors. The tropicals will be newly arranged in their winter quarters about the last of August.

Street Improvements.—The city council is making appropriations for many needed improvements of streets. In addition to the work already in progress, the commissioners of the First and Second Wards have been directed by the mayor to commence grading and gravelling several streets and alleys, setting the curb-stones, and paying the footways of others in these wards. In the Third and the fourth wards several improvements are also being commenced, among which may be noticed the grading and gravelling of H street north, from North Capitol street to mence of the street of the may be noticed the grading and gravelling of H street north, from North Capitol street to
